ABOUT

Software and AI Engineer currently pursuing the New Age Software Engineering Program from the Indian Institute of Technology Roorkee. Skilled in Python, backend development, frontend development, machine learning, chatbot development, and Large Language Model (LLM) integration and fine-tuning. Passionate about building intelligent AI-powered applications using modern technologies such as FastAPI, OpenAI APIs, AI agents, and generative AI frameworks. Interested in developing scalable AI systems, automation tools, and real-world AI solutions that enhance user experiences and business efficiency.

SKILLS

Programming Languages: Python, SQL, HTML, CSS, JavaScript

Tools & Frameworks: NumPy, Pandas, PyTorch, VS Code, Google Colab, Streamlit, Jupyter, Flask, FastAPI

Gen AI Tools & Frameworks: LangChain, LangGraph, MCP (Model Context Protocol), RAG, Vector Embeddings, AI Agents, Agentic AI, Generative AI

SE & AI/ML: Prompt Engineering, Python + DSA, Authentication & Authorization, Backend Architecture Basics, API Integration, Machine Learning, Deep Learning, Transformers Architecture, LLM Fine-Tuning, Multimodal AI, LLMs

Soft Skills: Problem Solving, Self-Learning, Team Collaboration, Analytical Thinking

PROJECTS

Kanban Board Application

Tech Stack: Python, Streamlit, FastAPI, REST APIs, Pydantic, Ollama, OpenAI, SQL, GitHub

- Built a task management application based on the Kanban methodology to organize and track workflow efficiently.

AI Chatbot Application

Tech Stack: Python, Streamlit, FastAPI, REST APIs, Pydantic, Ollama, OpenAI, Groq APIs, GitHub

- Built an AI-powered chatbot to deliver intelligent, context-aware responses using modern web technologies and AI APIs, enhancing user interaction and automation.

Portfolio Website

Tech Stack: Python, Git, GitHub, Live Server, JavaScript, CSS, Prompt Chaining, Streamlit, ReAct

- Developed a personal portfolio website to showcase projects, technical skills, and achievements using modern web technologies.

AI Trading Assistant

Tech Stack: Python, Groq LLMs (Gemma2-9B-IT), Prompt Chaining, Streamlit, LangGraph, LangChain, Tavily, DuckDuckGo, StateGraph, ReAct

- Built an AI Trading Assistant using Python and Large Language Models (LLMs) to provide insights on trading concepts and strategies.
- Integrated prompt engineering techniques to generate contextual responses for user queries.
- The system assists users with market understanding, trading terminology, and strategy explanations through AI-powered interactions.

EDUCATION

New Age Software Engineering Program CGPA: 7.3

iHUB DivyaSampark, IIT Roorkee 2025 – 2026

12th PCM 55%

ACHIEVEMENTS AND LEADERSHIP

- **Common Aptitude Test:** Secured AIR 11 in AI.

- **Google Gen AI Program:** Secured a certificate certified by Google on Generative AI, organized by Google.
- **HP Professional Networking:** Secured a certificate certified by HP in Professional Networking for Career Growth.
- **Masai:** Secured a Certificate of Excellence in evaluation on the Hack-2-Skill platform.
